Company snapshot

Formed 2023. Single-member LLC, Utah. Vendor neutral: the model is matched to the mission, not the agency to a stack.

Core capabilities

- **AI adoption and literacy training.** Survey-tailored workshops built around your team's real tasks and the tools your agency has approved.
- **AI governance and change management.** Prosci ADKAR structures rollout so the workforce can operate the system after handoff.
- **Working prototypes in weeks.** Prototypes that prove workflows before they ship, with an evaluation rubric your team can run.
- **Workflow automation.** Multi-tool fluency across Claude, Copilot, and Gemini. Vendor neutral.

Differentiators

- **Prosci Certified Change Practitioner, PMP, Doctor of Strategic Leadership.** Anchors the workforce side of every engagement.
- **Shipped products as proof.** Two apps shipped solo (RACEprompt, 2,000+ accounts across iOS, macOS, Android and web; QuietPulse on iOS and Apple Watch).
- **Alignment with OMB M-25-21 and M-25-22.** Engagements document model and data choices and avoid vendor lock-in.

Offer

AI Adoption & Literacy Sprint for federal teams, $9,500 to $14,500. Larger work via simplified acquisition. SDVOSB certified (SBA VetCert). Eligible for SDVOSB set-asides and sole-source authorities where applicable.

Past performance

New federal entrant. No federal contract past performance is claimed.
Commercial: RACEprompt (2,000+ accounts across iOS, macOS, Android and web) and QuietPulse (iOS and Apple Watch), both shipped solo. Jonesies Solutions LLC is also the engineering partner on F3, an app owned by Jada Sullivan.
